Issuing details:

This leaflet is issued by the Irish League of Credit Unions in respect of its affiliated credit unions and is for guidance only. Members should always check with their own credit union for further details. Terms and conditions will apply.

Membership of and all transactions with any credit union are subject to the rules of the credit union which may be obtained from your credit union.

Currencies referred to are in euro/€ for credit unions in the Republic of Ireland and Sterling/£ for credit unions in Northern Ireland.

The hands and globe are seen on credit unions throughout Ireland. The hands represent financial security and the globe stands for the worldwide network of credit unions. At the centre of our logo and of credit unions, are people.

Credit unions in the Republic of Ireland are regulated by the Central Bank in Ireland.

Credit unions in Northern Ireland are regulated by the Registrar of Credit Unions in Northern Ireland.

Managing your Money in 2011.

creditunionni.co.uk

WE LOOK AT THINGS DIFFERENTLY

Managing your money in the new financial era

This year is set to be the most financially challenging year most Irish families and individuals have ever faced.

2010 was a watershed year for the Northern Irish population, coping with pay cuts and redundancies on a scale not seen in many of our lifetimes. But this new financial year doesn't have to mean unnecessary stress and debt. We hope that encouraging you to look at your finances will help highlight where your money is going and put you on the first steps to effective budgeting and money management.

Who can help?

If you find yourself in a difficult financial situation, having trouble paying your bills, loan repayments and other expenses, just remember you are not alone. There are useful, non-judgmental and free advisory services available to you.

- Talk – in confidence - to your local credit union. Find your local credit union at creditunionni.co.uk
- The Consumer Council for Northern Ireland have responsibility to educate consumers on their rights and responsibilities and to equip them with the skills they need to make good decisions

about their money and manage it wisely. Check out consumercouncil.org.uk

- Citizens Advice provide information you need, including help to deal with your debt problems, how to avoid losing your home and how to get your finances back into shape on adviceguide.org.uk/nireland

Golden rules for managing your money

“I don't know where my money goes every month!”
 “Why are my monthly outgoings so high!”
 “I don't save!”

Have you ever heard yourself say these? If so here are our golden rules to help you gain control.

- **Track**
Keep track of your spending. Keep your receipts or take note of what you spend your money on. It will help you understand where your money is going and it might just be an eye opener.
- **Budget**
Estimate your income and expenditure for a set period and budget accordingly. But be realistic and don't underestimate!
- **Save**
Get into the habit of saving. Try to save at least 5% of your regular income for emergencies.

- **Be prudent**
Shop around and get the best deals and look at cost comparison websites such as confused.com & moneysupermarket.com to name but a few.
- **Borrowing**
There are times in our lives when we run short of funds. If you have to take out a loan, be sure you only borrow what you can comfortably afford to repay. You should match the repayment term to the purpose of the loan i.e. don't make the mistake of paying off Christmas over a number of years. Best advice is to stay away from credit cards and not to use Money Lenders.

Where do I start?

While most of us find budgeting boring it is absolutely essential - a budget is a plan of money you expect to receive and how you expect to spend it. A budget is important because it will show you:

- How much money is coming into your household.
- How much money is going out.
- How much you can afford to offer to those you owe money to.
- How you can best plan your spending in the future.

Budget planner

Your monthly expenses should not be more than your monthly income. If it is, it's time to look at where you can make some savings and/or cut backs.

INCOME	Monthly Income £
Your wages (after tax)	<input type="text"/>
Your partner's wages (after tax)	<input type="text"/>
Child benefit and other social security payments	<input type="text"/>
Other	<input type="text"/>
